CASE STUDY FOR RESTAURANTS

RESTAURANTS

Case Study

Customer :

The Urban Foundry

High Street, Balewadi

Pune

OVERVIEW

Running a restaurant is tough enough as it is, automate day-to-day processes easier by having a system that will ease the workload. Just like other day-to-day processes that restaurants have to deal with scheduling in employees, managing Attendance of employee and preparing payroll is a most difficult task. As your restaurant goes to multi location this even gets tough task. Managing multiple shift for Kitchen, waiters and other employees is most critical task in day to day operations.

As business grows a small staff becomes a large one. Restaurant owners has to focus on quality and service to the customers. Some restaurants are still using manual process to track attendance and calculate payroll. A business owner need these process to take on auto mode with minimum manual intervention so that they can keep their employees happy and deliver good service to customers.

CHALLANGES

- Break Shifts Management

- Available workforce in real time

- Controlling Overtime

- Leaves and Weekly off management

- Reducing overall operation budgets

- Manpower planning

- Old Attendance systems

" Simplify attendance & payroll process with myattendance web with employee login & leave approval system"

✖ SOLUTION

The Urban Foundry is a modern, All-Day Bar and Eatery that has been created to radiate an industrial vibe. TUF has been conceptualized as a hangout that provides a rustic feel and foundry-esque ambience.
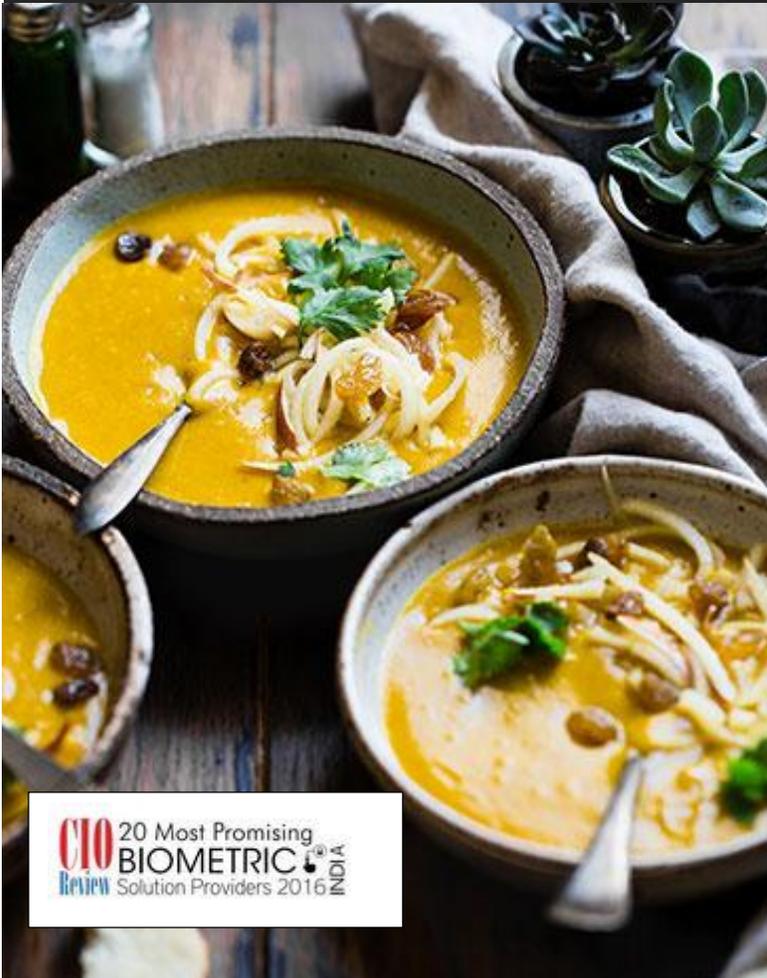

The old manual attendance system was taking too much of time to finalise attendance and calculate payroll on time. myAttendance web software integrated with ZkTeco fingerprint based attendance system implemented with Shift scheduling and break shift which has put HR department on AUTO mode in day to day activities. When eny employe punches on attendance system the data is automatically transmisted to server and processed at real time which enable them to get information of Shift wise / Department wise attendance , Late comings etc.

Auto email scheduler of daily reports like Present, Absent, Late coming, Overtime are set for management which saves lot of time in day to day reporting.
